Mr. Ron B. Schiller,
Box, 456,
Monmouth Beach,
New Jersey. U.S.A.

Dear Mr. Schiller,

Thank you for your letter of 29th November and your report of reception of our station on 1088 kc/s.

We were very interested to have your report the details of which coincided with the programme which we would have been radiating at the time. The commentary type programme which you remarked upon would have been the programme 'Today' which is a regular feature of our early morning broadcasts. It was noticeable that the announcement of the time was correct as one of the newsreaders in this programme is well known for giving it incorrectly.

For your interest and so that you will be able to identify our programmes more easily in the future we are enclosing a copy of 'Radio Times' which is the journal of our sound and television programmes. The pattern of our sound broadcasting does not change much in the early mornings.

Yours sincerely,

(H.D.P. Bambridge)
